Title: Associate Librarian

Comment:

Sir or Madam,

We continue to encounter difficulties in locating ownership/copyright holders for titles of Newsletters and Newspapers generated by Native American, Chicano and Asian American press.

We would very much like to microfilm many of the rare publications within our Library collections.

Due to the difficulties locating any participants/owners of aforementioned presses we cannot microfilm or can only do so with great difficulty.

Often, as far as we can know, we may be the only library in the country with these items and cannot share them via microfilm if we cannot locate the copyright holders.

Hoping that you can do something to enable.

Sincerely Yours, John D. Berry
Native American Studies Librarian
Ethnic Studies Library, UC-B
