Comment:

I am very involved in the local music scene in Wilmington, DE.

We are interested in broadcasting our shows over the internet legally. However, we don't want to give RIAA any money. Since it is very difficult to figure out what is copyrighted and what isn't, it is very hard for us to figure out what we can play legally - without giving any money to the big corporations.

Give music back to human beings.

If something is copyrighted, the copyright holder should have to publish the fact in easily and quickly acquired standard formats and locations. Also, we believe that they should have to pay something every year for each and every copyright- at least a dollar!

Sincerely,
Paul Homlish
