

Dear Sirs,

I am writing to express my opinion that artists and their right to earn income from their works need to be protected- please do not require additional reregistering to keep works under copyright, very few artists are able to make a living at what they do, changing the system to make orphan works easier for big companies to get a hold of and profit from just helps to put the individual out of business. As far as keeping updated addresses of owners please make a form available for artists to update their files with a blanket change of address that could be put in the files of all works.

Thanks,

Katie Atkinson
